

Pay Up

Civet

See you and I see right through,
baby everything is black and blue with you
Wasting money, killing time,
Everything is on my dime with you

[Chorus:]

Lay it on the line one more time
Tell me what to believe one more time

Maybe it's just the price I pay,
Gotta live to love you everyday, it's ok
We're cutting our loses
And drinking our dreams,
Everything is worse than it seems with you

[Chorus: x2]

Lay it on the line one more time
Tell me what to believe one more time
(I'm just fine)

See you now that we're both new
And all the stuff we've worked through,
It's you
Wasting days and giving lines,
And everything came in time with you

For what it's worth
I know I can't control you
My green eyes, counterfeit smile,
I long to hold you
I've got nothing but distrust
Don't you make me lie to you,
blame it on them like I always do,
Like I do
Pay up, yeah, I'd love to
Pay-up, I'd love to (8x)
