

Love Was All That Mattered

Civil Twilight

You are a fallen star
Fallen so far away
A cold ice settled over us
Never to melt away

Love was all that mattered to us then
Love was all that mattered to us then

With a bruised heart and bleeding hand
I crawled back home to you
One star above my head
Drawing this man out again

Love was all that mattered to us then
Love was all that mattered to us then

A secret fire was borrowed, never returned
Love was all that mattered 'til it burned

Love was all that mattered to us then
Love was all that mattered to us then
