

Oh Daniel

Civil Twilight

The sun rose this morning
Over my bruised head
I can't remember the things I'd said
The air is getting dryer
The days slip through my hands
Today I hope to know, to understand

Oh Daniel I wish I knew
Oh Daniel I wish I knew
Oh Daniel I wish I knew
What I was doing

I think she'll move out West
Be with the ones she knows
Leave the wreckage of this one man show
And my hands will keep shaking
And my eyes will stay wet
The more I try to remember the more I forget

Oh Daniel I wish I knew
Oh Daniel I wish I knew
Oh Daniel I wish I knew
What I was doing

You can do it all right
Love everyone in sight
Live out your dreams and take on the night
You can do the best
Anybody's done
But you're still gonna end up hurting someone

Oh Daniel I wish I knew
Oh Daniel I wish I knew
Oh Daniel I wish I knew
What I was doing

Oh Daniel I wish I knew
Oh Daniel I wish I knew
