

# Admiral Over The Oceans

## Civil War

It's ship against ship and man against man  
The Trafalgar showdown is here  
A crucial ordeal, steel against steel: hold on get ready to fire

Victory turned towards the enemy fleet  
An alliance between France and Spain  
This war on the waves would decide Europe's fate  
We don't run: we're here to attack

Blood, smoke and water, body parts everywhere  
Cannonballs flying, bullets in the air  
Nelson was standing in the middle of it all  
No one thought he would fall

He's the admiral over the oceans  
The admiral over the sea  
He's the admiral over the oceans  
If you don't understand, read the history book again

I do believe they have done it at last  
But the battle has been won  
I have a short time to live, this time I give in  
My duty has been done

Wars can't be won by the hand of just one man  
That may be true but listen clear my friend  
He sailed the seas with a cause to serve his land  
Under Gods command

He's the admiral over the oceans  
The admiral over the sea  
He's the admiral over the oceans  
If you don't understand, read the history book  
He's the admiral over the oceans  
The emperor over the waves  
He's the admiral over the oceans  
If you don't understand, read the history book again

Blood, smoke and water, body parts everywhere  
Cannonballs flying, bullets in the air  
Nelson was standing in the middle of it all  
No one thought he would fall

He's the admiral over the oceans  
The admiral over the sea  
He's the admiral over the oceans  
If you don't understand, read the history book  
He's the admiral over the oceans  
The emperor over the waves  
He's the admiral over the oceans

If you don't understand  
Take a look at Trafalgar Square
