## Civil War

Acid dreams infernal thoughts  
Future is for real  
Monsters creatures of mankind  
Stronger than the steel  
We are frightened we are enlightened  
Is this the ending of the earth  
Forever and ever this war will go on  
I know we're children of rebirth

Sacred hearts of outer space  
Is there signs of life  
We need a place our time is running out

Gladiator of the earth  
We are the human race lost in the final phase now  
Forever seeking  
Gladiator of this time  
Lost in the future fight heading into the light now  
Gladiator

Who can live forevermore  
None that's what I've heard  
Ghosts or angels I don't care  
I'm a watcher of the world  
Sole survivor unholy driver  
Time now to open up the gates  
The masses just want to come in from the cold  
I know it's a legacy of hate

Hear our song infinity  
We are here and now  
Liar and betrayer you must die

Gladiator of the earth  
We are the human race lost in the final phase now  
Forever seeking  
Gladiator of this time  
Lost in the future fight heading into the light now  
Gladiator

Gladiator of the earth  
We are the human race lost in the final phase now  
Forever seeking  
Gladiator of this time  
Lost in the future fight heading into the light now  
Gladiator
