

Here For You

CIX

I'd wait forever to
Get lost deep in your eyes and
When you want me to be there
Just know, I'm right by your side, then

In the darkest moments, you are not alone
Even when you're far, you'll feel at home
Please remember, the times you cried
Never last and out came the light

I'm here for you
And I'll help you through
When you're feeling down
I'll lift you from the ground
Don't you worry
I'm here for you

I'm here for you
Yeah

I know you know that
I think about you all the time like
Where you've been, what you're doing
And if you're feeling alright, and

Then should a time come, when you're in despair
Close your eyes, picture that I'm there
Two is better than being one
My love for you will never come undone

I'm here for you
And I'll help you through
When you're feeling down
I'll lift you from the ground
Don't you worry
I'm here for you

I'll be your guiding light
That saves you from the night
Always here, and I
Will love with all my mind
Our souls are intertwined
For all of time

I'm here for you
And I'll help you through
When you're feeling down
I'll lift you from the ground
Don't you worry
I'm here for you

Oh-oh, oh-oh
Oh-oh, oh-oh-oh-oh
Oh-oh, oh-oh-oh-oh-oh
Oh-oh-oh
