Ain't no matter if you're skinny or you're fat
If you're light skin or you're Spanish
Girl, you're pretty on your block

You're so sexy, make an old man wanna catch a heart attack
When I found you, I was shocked like I found an artifact
Want you tell me all the facts while you get a piece of back
Like a gift in all your box, switch up on me like an act
Caliente, you're so hot, girl, I don't wanna make you do that
Know you're special for me, look into your eyes
Heaven said you look like you came out the skies, look like you came out the
Make me wanna dance with you when you are wine [?]
You, because you're too damn fine, baby girl, you're too damn
Walkin' trophy and I'm focused on the prize
At no cost, I think that I will pay the price
Got me so sensitive to touch, like out my mind
Whatever I gotta do to make you mine (Fly)

Big-big-b-b-big, big, big, who got the keys to the Jeep?
She look part Cherokee, and the one with the lease, yes, it
She passin' by, tires screech, can't just park on the street
'Cause the cyar might be T'd, you see it
I tink you're more of my speed, glasses tint, can't be seen
Gettin' stopped by police, you'll see
Window down, you'll feel the breeze
Just like use your AC and recline your seat
