

Be With You

CJ FLY

I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you

You could call me fly
Tryna find your Mr Right then baby I'm your guy
I can't wait to show you off and tell the world you mine
Chemistry soon as we met cause we just caught a VIB
No thats not a lie
We on borrowed time
I might not have all the answers but girl I'm a try
You could tell me when you ready you know I won't pry
Be the one to quench your thirst soon as the well run dry
Lets go for a drive
I want you to see
It's just you and me
We just human being
This is true indeed
Don't mean to impede
I'll give you a seed
Start a family tree
hope that you don't leave
Send chills up your spine
What you gone decide?
The decisions all on you
When you make up your mind
I ain't tryna halt your plans
I know you on your grind
All you gotta do is trust me
It's all gone be fine

I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you

Girl I like your style
Know I'm with it if you with it
We could have a child
You the only one that I been feeling for a while
feeling for a while

You been holding out
If you with it then I'm with it
Let me hold you down
You the only one that I been feeling for a while
feeling for a while

Know you heard that saying about two birds of the same feather

Didn't know when it would happen but I knew we'd get together
We lactose intolerant but we still focused on our cheddar
No my name ain't Fabolous but baby girl you make me better
That I wanna be
Know your ex use to play games but I ain't gonna cheat
Get you whatever you want girl I ain't gone be cheap
You know that I'm fond of you so we could blow this cheese
We like golden geese
You should take some time off
Just to clear up the mind fog
Shorty height like 5'4
She don't like her guys short
Please don't tell me I'm yours
Then go breaking my heart
What we telling lies for
Just don't say it's my fault
I been there before
Had to leave my ex before you I was getting bored
We ain't kids we both adults and thats just ain't mature
Only got one life to live so we ain't wasting ours
Hope we make it far
Because

I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
I just I wanna be with you
