CJ FLY

Always been there for some people what I get back in return (back in return)
They turn my kindness from weakness and that's why I had to be stern (had to be stern)
I never knew how to fly that's the reason I had to get burnt (had to get burnt)
Thought that we could fly together why you had to act like a bird (act like a bird)
I try my best to be peaceful so no one don't have to get hurt (have to get hurt)
Try not to get out of character ain't wanna have to get turnt (have to get turnt)
Always been there for some people what I get back in return (back in return)

Fame what they want
Ain't my day ones
Only been homies for just a few months
Time don't build trust
Especially when people you thought you was friends with start movings sus
I don't hold a grudge
Stop messing w em like they're non existent because they're a dub
Why you sending threats
When you ain't a thug
Seen you in the club
And you ain't do none
I've been known to bug
Just needed a push
Yeah I gave it up in my days in the bush
Some homies was blood
My crodies was cause
You think that you tough
We all know you puss
Ain't show no real love
Play me like I'm dumb
I won't be the one
Cause you just a bum
I know that you buns
It's just how I felt
Now that I can't feel
Because I am numb (FLYYY!)
