Fly!

Hailing from the home of the goats and the diddy bop
Was slapping nigga silly like I was doing the milly rock
Father from Jamaica but I ain't talking bout 50 block
Bumboclawt!

Hailing from the home of the goats and the diddy bop
Was slapping niggas silly like I was doing the milly rock
Father from Jamaica but I ain't talking bout 50 block
The boys in blue that you might seen me with ain't the city cops
Barrel in your mouth
I won't be the one lick a shot
Slurs in your words
Like you had too many liquor shots
The real godfather
To all you punks word to iggy pop
Wanna live forever ain't tryna go out like BIG or Pac
Twisted every strand that I had
Like I'm getting locs
The wax look like capers on papers
Smoked it like salmon lox
Shaking up the world wait until they all feel the aftershock
So fly I surpassed the sky like an astronaut
I'm sharpening my sword while stoned but this ain't Camelot
I'm from another planet get what I'm Saiyan I'm Kakarot
Some players ball hogs all cause they don't know how to pass the rock
May look good on the outside but bittersweet like an apricot
Some say we from Africa
I'm from ancient Alkebulan
They keep rewriting history
Why believe if they keep on lying
Controlling all the masses
You can't believe what you read online
You being played
I don't mean plaid
Look in between the lines
Now my chakras realigned
Third eye open could read your mind
When you hear me say that I'm nice
I ain't being kind
Y'all ain't seeing me
That got nothing to do with blind
It's Fly!
Bitch!
