Oh shit

Uh

Heads turn when I step in the room
The type of art I make should be kept in the Louves
I'm the one they expected to lose
Turn into to superman when I step in the booth
Turn the fire and cook when I get in the stew
My brother told me I'm the best well that it's true
I beer it all though I never drink brew
All I smoke is skunk this that pepe la pew
They ain't F'n with you when you got that Effen with you
Most these rappers Fu like F and an U
Rapping good what I put my effort into
I'm cold I leave em on they toes like they stepped in the pool
Their first thought is probably he get his garments
If he got that imagine what else he got in his closet
If they was in their bag, then it must be the garbage
All my diamonds flawless and my bitch is gorgeous
Leveled up and switch my hustle came some way from flipping oun
ces
Charging 15 for the booking need my payment by the thousand
