Fly

You are now witnessing greatness in the making
Was a Pharaoh now I'm a King
Underground's an understatement
I'm pro eras elder statesman
They think its factory made
With all the gems that I created
Guess they don't feel like you make it
'Till you whippin' in the Macan
Ironie the Porsche a horse
My check a stallion like Meghan
No matter what your religion
We all getting to the bacon
In love with making this bread
So chef fly's get into baking
Respect ain't given, so it ain't a problem having to take it
Carry the team on my back and it got me aching
I'm doing numbers exceeding my calculations
I'm still the illest, I ain't a hospital patient
Knowledge imbedded, Kemetic civilisations
Used to smoke weed 'cause it helped me when I was anxious
Especially when I'm round people I know I can't trust
I do this for the civilians and all the gangsters
These niggas know they gone lose if they go against us
I levelled up, this all apart of my ascension
Out of this world, I don't think I'm from this dimension
Grandma can barely remember, it's her dementia
A lot of things I don't talk about and don't mention
Like all the family drama and all the tension
Because sometimes things may come off worse than I meant to
Then I look foul even though that's not my intention
I wish that life wasn't short and had some extension

We all that we got
Used to dream about the day I'd see us all at the top
I got goals of being rich because I was a have-not
My life's a movie hear my story, this is all part of the plot
We all that we got
Used to dream about the day I'd see us all at the top
I got goals of being rich because I was a have-not
My life's a movie hear my story

This is what you all been waiting for ain't it?
An artist who gone paint it?
A decade putting the pain in as long as the beat is banging
And the crown for the taking
For the stars we're I'm aiming
Won't ever part with my stainless, it's heinous cause they just haters
They ain't us, they just anus
And trust me I do not give a fuck if they famous
I know it stinks but me killing em was just a must
Consistent for the last 8 months
The sickest but no no it ain't mumps
Offshore accounts in the Caymans
Started from the bottom I can't forget how we came up
The flow get slippery I could guarantee that I ain't mop
Internet shooter these niggas still using aimbot

Thought that I was playing so much in store like a GameStop
I could admit I was a klepto but not a thief
I came to bring you back that real I'm talking novelty
The game is rigged for you to win it's like you gotta cheat
I'm all about equality, I'm bringing change each time I speak
Working my way up and I know one day that I'm gone peak
I turn my phone on DND and then I'm out of reach
I swear that life is bittersweet like when you bite a peach
I ain't a pastor or a priest, I got no time to preach
Went from calling money dough and bread but now it's breesh
Might wind up letting that thing blow and then I gotta breeze
They might not understand I'm on the sands right by the beach
Know homies that caught stains that still stick with em like they outta blea
