

FLY!
Oreyeyeo

All praises to Orunmila because he taught us how
Gotta thank Olodumare cause he blessed us with a child
After having a miscarriage you could bet that we both proud
Gotta thank the Iyanifa, gotta thank the Babalawo
Asé to the orisas, gotta say good looking out
Could thank em in your head but you should thank em out aloud
Thankful for the future and I'm thankful for the now
Even thought this year been wild, all the shit thats going down
So unpredictable I don't know what to expect
I don't even think a psychic know whats bout to come next
World is getting dangerous, I got loved ones to protect
Give battles to his strongest soldiers so this must be a test
Ready for war, Coronavirus made me cancel the tour
Did a song with Phife, it felt like he was passing the torch
Sad that he gone, now it's time to settle the score
The most valuable Pro's putting points on board
In an ISO ain't nobody holding your boy
I'm a crab feel most at peace when I'm close to the shore
Rudebwoy sound like what they love I did that one for the core
Music's undeniable so now I won't be ignored
Plus I'm still well connected and I don't need a cord
We upgraded to a Jeep before we drove an Accord
Only time we wore a suit was when we going to court
The few times that I smoked weed was when we'd go and record
I was socially anxious
And the weed would hold me down like a boat and an anchor
When I made crossover I broke a few ankles
Counting this dough like a baker, stacking this gold like a banker
All the blessing I'm receiving you know that I'm thankful
I know there's more that will come
Can't believe we 'bout to have us a daughter or son
Wifey praying for a girl cause that's all that she want
I'm just glad to have a kid, would prefer either one
One

I'd rather put this in a song then put this on the 'Gram
Its week 8 and we just got our first sonogram
We about to make my father and our moms a grand
Only way to top this is to put a ring on my girl hand
I'd rather put this in a song then put this on the 'Gram
It's week 8 and we just got our first sonogram
We about to make my father and our moms a grand
Only way to top this is to put a ring on my girl hand
