

SPEECHLESS

CJ FLY

Hoooo
Yeah ah uh
FLY!

I did not come to play
When we met we were just strays
Can't find the words to say
Cats got my tongue today

I did not come to play
When we met we were just strays
Can't find the words to say
Cats got my tongue today

You make me speechless
So wet I'm seasick
I'll keep your secrets
We met at Sweet Chick

Don't want mine bland, no
Heavily seasoned
Girl you look scrumptious
I'm tryna' eat it

I'm in if she's in
All years your season
Fine with receivin'
I'm here for pleasin'

I'll break them knees in
I'll leave you leakin'
Won't wait for weekend
For all the freakin'

Girl, I didn't come to play
When we met we were just strays
Can't find the words to say
Cats got my tongue today

I did not come to play
When we met we were just strays
Can't find the words to say
Cats got my tongue today

Everything you do is sexy
I can't lie girl you impress me
Need a girl that clean up nice
Cuz trust me I get super messy

Ain't it feel it was electric
Feel like I be really blessed bae
When they come to kick it gain trust
I ain't lie you know that's pressing

To this day the only one
That gave me sloppy in that taxi
Faded off of that tequila

I was nutting in that back seat

We were on the FDR
It's not like we was on the back street
And the way she sucked me up
Girl, I'd do anything you'd ask me

My legs weak, can't even walk
Lost for words, can't even talk
I just hope we don't get caught
Get us both kicked out the car

Know we bout to get it on
12 hours has been too long
Gave you something [?]
Get you something digging on

Got me started, so you know what's 'bout to happen
I ain't trippin', you were drippin', but I'm packin'
I just hope that you ain't scared and don't start pantin'
This that this that prop she tell me put it back in

I did not come to play
When we met we were just strays
Can't find the words to say
Cats got my tongue today

I did not come to play
When we met we were just strays
Can't find the words to say
Cats got my tongue today

I did not come to play
When we met we were just strays
Can't find the words to say
Cats got my tongue today
