

Things Change

CJ FLY

Uh

Police gone say I fit the description
Just the reality of our system
Biblical verses I'm written scriptures
Whole generation hooked on prescriptions
Jobs out of business then more evictions
Cold blooded killings these streets is vicious
Always a victim but whose the victor
Life is a movie a motion picture
I just direct it like I was Spike Lee
Broke but expect us to do the right thing
Got a few haters know they don't like me
Guess they just jealous of what I might be
CJ Fly quitting is so unlikely
One day I'll book a jet just to sight see
Words expensive make sure you talk to nicely
Stacking hundos the 50s go to my wifey
We having us a kid
So I'm stacking for a crib
I don't mean a house of cards
In a mansion's where I'll live
Just imagine til it is
The dimensions gone be big
A few acres and a yard
I'm just manifesting it

They don't know much I healed until they feel my pain
Ain't wanna feel it, I used weed like it was novacane
Take a walk inside my shoe and see how far I came
My girl treat me like Superman and she my Lois Lane

I'm just hoping that things'll change
By the way that it's been going it's been feeling strange
I'm just hoping that things'll change
I'm just hoping that things'll change

I'm just hoping that things'll change
By the way that it's been going it's been feeling strange
I'm just hoping that things'll change
I'm just hoping that things'll change

I'm just hoping that things'll change
I'm just hoping that things'll change
I'm just hoping that things'll change
I'm just hoping that things'll change
