

THAT FEELING

CKay

Your mama warned you
About niggas like me
But you never listen
You never listen
I dey follow woman
I'm never sober
Bad girl inna my snap
Bad girl sending me wap

If you're looking for the love of your life
I promise I'm not the one
Be like sey you go look another place
But if you want to catch some trips
If you want to have some fun
I am the one you call

When you get that feeling
But don't go catching feelings for me
For me
For me

Cos I might disappoint you
And then you hate me
And then you block me
You delete my number
Skin to skin to enemies
Sickness with no remedy
Make we just leave am laka dis baby gyal

If you're looking for the love of your life
I promise I'm not the one
Be like sey you go look another place
But if you want to catch some trips
If you want to have some fun
I am the one you call

When you get that feeling
But don't go catching feelings for me
For me
For me
