

## One Step Ahead

CKY

You are destined to win  
And slowly enlarge your soul  
With no question you will  
You're strong, you will shine like gold  
But there's no end to the maze  
Engulfed in the danger zone

One step ahead  
It's the only way to go  
One step ahead  
It's the only way I know

You are the dressed for the kill  
And locked into cruise control  
You resist standing still  
No rest til the final goal  
But there's no first in this race  
Take time, you are on your own

One step ahead  
It's the only way to go  
One step ahead  
It's the only way I know
