

There's no easy way to say it  
There's no perfect way to play it  
Just wanna see you face to face  
Give me time and place  
You know that I'm keep trying  
But it's never the right time  
Can't you see the red light  
My heart's on the front line

Take it from me  
When the siren goes off  
That's when the lies will stop  
When the siren goes off  
I know you're ready to love  
Don't you dare walk away from me  
I know you got something to say to me

We were beautiful, we had the world  
That's right  
Remember the day we had and that night  
Who's gonna love you like that  
Who's gonna love you like that

It ain't done til it's finished  
So spit it out and admit it  
Let's work it out  
Just wanna see you face to face  
I'm sick and tired of playing games  
I'm never like this  
In and out, in the emotions  
You know I don't let it, let it  
□□□ □□ ["Beolyeojin jaemi"/"Abandoned fun"]  
But I ran into the red light  
With you I'm on the front line

Take it from me  
When the siren goes off  
That's when the lies will stop  
When the siren goes off  
I know you're ready to love  
Don't you dare walk away from me  
I know you got something to say to me

We were beautiful, we had the world  
That's right  
Remember the day we had and that night  
Who's gonna love you like that  
Who's gonna love you like that

There's a fire in the room  
Don't let it burn out  
Baby, let it cool  
Don't let it burn out  
Fire in the room  
There's a fire in the room  
There's a fire in the room  
Don't let it burn out

Baby, let it cool  
Don't let it burn out  
Fire in the room  
There's a fire in the room

Take it from me  
When the siren goes off  
That's when the lies will stop  
When the siren goes off  
I know you're ready to love  
Don't you dare walk away from me  
I know you got something to say to me

We were beautiful, we had the world  
That's right  
Remember the day we had and that night  
Who's gonna love you like that  
Who's gonna love you like that
