

All I know, I got to be  
With you, no reason not to be  
Next to you, you next to me  
Holding you, you're holding me  
Time again, I want to leave  
The way you look at me  
I could be away from here  
With no one, just you

All I want is you  
I love you  
Gladly, gladly, gladly  
All I want is you  
I love you  
Gladly, gladly, gladly

I don't want to sound so serious  
But you are taking me away from all this hate  
All it takes, all it takes  
Is your arms, your smile  
I like you  
You're like to me  
Closer than I've ever been  
I want you around me  
Always, always

All I want is you  
I love you  
Gladly, gladly, gladly (Yeah)  
All I want is you (Oh)  
I love you  
Gladly, gladly, gladly

Feels like it's raining, super soak  
Feels like it's raining, super soak  
Feels like it's raining, super soak  
Feels like it's raining, super soak
