

## Never Have I Ever

Clairo

It's just another possibility  
Didn't think I could be anything I want  
You say you like me  
Or at least I hear, through the atmosphere

Never have I ever wanted to kiss you  
I put my finger down 'cause all I wanna do  
Tell me all the things you like  
Never have I ever wanted to be in your life

Never have I ever wanted to be in your life  
I put my finger down 'cause that's a lie
