Clan of Xymox

I want to delete the secrets that I keep
I want to erase all mistakes that I made
Delete, delete
Bleep, bleep, bleep
Bleep, bleep, bleep

Kill all yesterdays , lets just start again
Kill off all the pain, re boot all the way

I want to delete the secrets that I keep
I want to erase and turn over the page
And coming clean, you know what I mean

Delete , delete , deceit, delete, delete
Obliterate, annihilate, eliminate, eliminate
Obliterate, annihilate, delete, delete

No good 'ole times , no glory days

I wipe the slate clean on my way
To the door and ask no more
What did I do there on the floor?

Delete, complete, delete, complete

I want to delete the secrets that I keep
I want to erase the time and the place
Delete, delete
Bleep, bleep , bleep

Kill all yesterdays, lets just start again
Kill off all the pain, re boot all the way
Kill all yesterdays, lets just start again

Kill off all the pain , re boot all the way
Delete, delete , delete
