

I Couldn't Save You

Clan of Xymox

Upon one evening
Clocks whirred and chimed
Let not time deceive you
We cannot unwind the past

I could feel my heart beat
I hear the noisy street and

Now i know, you needed to go
I know, i know, i miss you so

I couldn't save you
Death made it's touch
I couldn't save you
From the reapers grasp

Love leaks away and
Time will have it's way
It hounds me from the inside
Pounding on my brain
It sorrounds my soul and threatens
To swallow me in whole and

I know it was time to go
I know, i know rest your soul

I couldn't save you
Death made it's touch
I couldn't save you
From it's grasp

Your state is now my come down
I ward off all my thoughts
This is coming home now
Forever you live on in my heart
You lied in a dream state
You understood too well
The grasp for a last breath
Is like water in hell

I couldn't save you
I couldn't grasp
I couldn't save you
From it's grasp
