

In Your Arms Again

Clan of Xymox

Stop following me in my lonely hour
You said you would like an honest child
It's the way you are, you stay on proud
and guilty of keeping quiet

Stop judging me, keep your verdict please
Get of your horse, I feel no remorse in me
I want to be in your arms again
I want to sleep in your arms again
I want to be in love again
I want to feel in love again
I want to be in love just like then

You make me feel I can't breathe
You make me feel I can't speak

I wanna be in love again
You make me feel I can't speak
Please sweep me right of my feet
