I know what you can do Your reputation is ahead of you Your lies won't let me go But really, I don't want to know You've got all what it takes To show loves double face My heart breaks, my heart aches I am breathing in your sweet scent It's your life It's your time It's allright I don't mind The best things in life are free Sometimes it is killing me You take the loss and the gain You run away, all the same Why loosing drift in a heavy fall? You speed away back to it all It's your life It's your time It's allright I don't mind
