

Tears Ago

Clan of Xymox

You need confirmation, you feel insecure
You feed off aggravation, you are toxic to the core
With tears aglow, tears aglow, tears ago

She craves for attention
She is a drama queen at heart
So full of false emotions
When her world fell apart

Tears ago, years ago

I saw you all downbeat,
I saw you, all downbeat,
years ago, years ago

So now she ignores me
In the middle of a crowd
with tears aglow, tears aglow
