

A Song In Your Heart

Clannad

You were always there, there for me, stop me falling
I can see the smile that shines from your eyes
I believe the stars above me for keeping
Knowing that your love touched so many lives

Round and around, I'm still hearing songs from long ago
Spirits were high between you and I
Songs full of love that circles round and round
I'll always know the song in your heart

Tell me 'bout the days, all the days of the dancing
How the rhythm flows from the beat of your heart
Dreams can fill our lives, but our life keeps on turning
Loving is easy with you on my side

Round and around, I'm still hearing songs from long ago
Spirits were high between you and I
Songs full of love that circles round and round
I'll always know the song in your heart

Round and around, I'm still hearing songs from long ago
Spirits were high between you and I
Songs full of love that circles round and round
I'll always know the song in your heart
