

Fireproof

Clap Your Hands Say Yeah

The elastic of my snap stick seems to snap down on the [?]
I take a drastic
He lit a matchstick and set fire to the tears
I will go around that stage in just my birthday suit
Now that I'm fireproof

It's a candle that you bring to the table
But it's not enough for me
Small fever, my neighbor
My savior you will be
The ring of fire is growing high
But we will never leave

No, no, no, no... [repeat]

And I know, I know it's hard to win
But how could I have thought we'd ever lose?
Oh, what a drag it is to win
I love you, I love me, I would love me too

So don't be alarmed, don't be afraid
When it is just a little fire
I'm teaching myself to be safe
Waiting for you to regain your sight
We were in a fire last night
I just lost one too
Turns out I'm fireproof

Now that I'm fireproof
Now that I'm fireproof
Now that I'm fireproof
