Anyday

Eric Clapton

```
D                    D/C              G        B
Heard you talking and I thought I heard you say
 D       D/C             G     B
Yeah, "Please leave me alone
D        D/C                 G            B
Nothing in this world can make me stay
D     D/C      G        B                  C  G7   D
I'd rather go back, I'd rather go back home"

       G          C     G7    D G C G7 D
R: But if you believe in me
   G           C       G7  D G C G7 D
   Like I believe in you
             G         C  G7    D  G C G7 D
   We could have a love so true
            G      C  G7   D
   We would go on endlessly
              G           C                  G    C Am7
   And I know anyday, anyday, I will see you smile
   G              C                      G   C Am7   D7
   Any way, any way, (if) only for a little while
```

Well someday baby, I know you're gonna need me
When this whole world has got you down
I'll be right here, so woman call me
And I'll never ever let you down

R: But if you believe in me...

Break the glass and twist the knife into yourself
You've got to be a fool to understand
To bring your woman back home
After she's left you for another
You've got to be a, you've got to be a man

R: But if you believe in me...
