Diamonds Made From Rain

Eric Clapton

The moment's come and gone Every memory leaves a trace All that I've come to know In the lines upon my face

Every storm that I have turned Each forgiveness I have earned Every shame that's taught me grace From you I have learned

No love is lost No love is lost

That everything is shown to me I let it wash over me Like diamonds made of rain You can find joy inside the pain

Everything that I've endured

For the wisdom of a pearl

I wouldn't change a thing

You can make diamonds from the rain

Every mile of this road
Every chord that's struck my soul
You are the melody
That will soothe me 'til I'm old

If the promises are kept
I'll waive all of my regrets
I can say I've overcome
With you, my heart is open

No love was lost No love was lost

That everything is shown to me
I let it wash over me
Like diamonds made of rain
You can find joy inside the pain

Everything that I've endured
For the wisdom of a pearl
I wouldn't change a thing
You can make diamonds from the rain
