

# High Time We Went

Eric Clapton

Well, it's five o'clock in the mornin'  
Really I won't tell a lie  
A bit tired and lonely  
I won't even tell a lie

It's high time we went  
It's high time we went  
High time we went, babe  
It's high time we went

Well, it's four o'clock and I am waiting  
We won't gonna tell a lie  
Somebody's complaining  
Come up in a leary lie

It's high time we went  
High time we went  
High time we went, babe  
It's high time we went

Move us  
Couldn't stand there

Oh, it's four o'clock and I am waiting  
Now or ever sound bad  
Somebody's complaining  
Now up in a teary lie

It's high time we went  
High time we went  
It's high time we went, babe  
It's high time we went

Let me say about the load

Hey, it's two o'clock and I am waiting  
I wouldn't ever tell a lie  
My baby alone baby  
Come up in a comest lie

It's high time we went  
It's high time we went  
It's high time we went, babe  
It's high time we went

We went how we went  
High time we went  
It's high time we went  
High time we went  
High time we went  
It's high time we went  
It's high time we went, babe  
High time we went  
High time we went  
High time we went  
High time we went  
High time we went

Sing it again  
High time we went, babe  
High time we went  
High time we went  
High time we went
