

# Your One and Only Man

Eric Clapton

Hey, hey, hey  
If I can only make you see  
That you were only meant for me  
Our love will be free  
And I'll be your destiny  
Your destiny, your destiny

If I can make you understand  
Treat me right and love me  
Then I will be your man  
Your one and only man

These are the words that I have to say  
Live by them each and every day  
And as the time pass I know our love will last  
Our love will last, our love will last

Take me blue and understand them  
Live by them and love me  
Then I will be your man  
Your one and only man

These are the words that I have to say  
Just live by them each and every day  
And as the time pass I know our love will last  
Our love will last, our love will last

Take me blue and understand  
Live by them and love me  
Honey I will be your man  
Your one and only man  
Your sweet lovin' man  
I will be your man

(Your one and only man)  
(Your one and only man)  
(Your one and only man)  
(I will be your man).
