

# Animal

Clapton

And you when feel us  
Your house is caving in  
I took a ride to anywhere  
And I can tell you  
Just like your daddy does  
I know it sounds like giving up

Yeah, with the silk piece swimming around  
I'm giving you the truth  
I'll go where the weather is telling me to go  
I'm an arrow chief, I had to take me back  
But when he knocks me kitchen down  
I'll go where the weather is telling me to go  
Nothing I can say, we're animals  
We're animals

Wish I could fake it  
Just like your daddy does  
Go ahead and say it  
You fucked up, little so and so  
Until the place that you can know  
And I've been in anxiety  
And complicated energy  
Suicide, too good for me  
I know, I know and he's not asking me  
I know, I know and he's not after me  
You're animals, you're animals

And you when feel us  
Your house is caving in  
I took a ride to anywhere  
And I can tell you  
Just like your daddy does  
I know it sounds like giving up

Yeah, with the silk piece swimming around  
I'm giving you the truth  
I'll go where the weather is telling me to go  
I'm an arrow chief, I had to take me back  
You're animals, you're animals  
But when he knocks me kitchen down  
I'm giving you the truth  
I'll go where the weather is telling me to go  
Nothing I can say, we're animals  
We're animals  
You're animals, you're animals  
You're animals, you're animals
