

I Write Your Name

Claptone

When I write your name
In the palm of my hand
On a far away beach

With a tweak of sands

I can feel you all around me bend
And inside of me is love
I can feel you here within my soul
And inside of me is love
... is love
... is love
When I carve your name
Onto a willow tree
And on every desk
In the library

I can feel you all around me bend
And inside of me is love
I can feel you here within my soul
And inside of me is love
... love
... is love
And inside of me is love
