Claptone

In... the beginning
Before one woman caught my eye
In... the beginning of you and I

In... the beginning
I held your body tight
In... the beginning of you and I

So this is where the passion is and this is where my new life b
egins
So this is where the passion is and this is where my new life b
egins
My new life begins
My new life begins
My new life begins
My new life begins
My new life begins

In... the beginning
Before one woman caught my eye
In... the beginning of you and I, of you and I, of you and I, o
f you and I

In the beginning
So this is where the passion is and this is where my new life b
egins
So this is where the passion is and this is where my new life b
egins
My new life begins
