

Just a Ghost

Claptone

I lost you in the summer
Before the lake got cold
You found another lover
Before the leaves turned gold
The days are getting darker
The wind begins to blow
I lost you in the summer
Like angels in the snow

When the sun sets and the night falls
Shadows dance across the walls
We come to life and I pull you close
Even if you're just a ghost

Just a ghost to me
Just a ghost to me
Just a ghost to me
Even if you're just a ghost

Even if you're just a ghost

I lost you in the summer
Before the lake got cold
But I can still remember
The dunes before they froze
There's a light across the water
But I know that you're not home
I lost you in the summer
But I never let you go

When the sun sets and the night falls
Shadows dance across the walls
We come to life and I pull you close
Even if you're just a ghost

Just a ghost to me
Just a ghost to me
Just a ghost to me
Even if you're just a ghost

Baby I don't think I'm seeing things
To me you're not a ghost
Baby I don't think I'm seeing things
To me you're not a ghost

When the sun sets and the night falls
Shadows dance across the walls
We come to life and I pull you close
Even if you're just a ghost

Just a ghost to me
Just a ghost to me
Just a ghost to me
Even if you're just a ghost

Even if you're just a ghost
Even if you're just a ghost

Baby I don't think I'm seeing things
To me you're not a ghost
Baby I don't think I'm seeing things
To me you're not a ghost
