

# Party Girl

Claptone

Give me some blues and greens  
Let's get stoned and smoke some brown weed  
I wanna go to the VIP meet and greet  
Kinda love those shoes three tone  
Red on black  
Black on black

My baby is a party girl  
And party girls wanna hang out  
You better not fall in love with a woman like that  
My baby she is out and about  
The more she's away, the more she likes it  
I think it's time I let her go

Party girl...

I gotta let her go

Gimme everything I want right now  
Gimme everything I want right now

Sushi treats, Hennessey's  
Private clubs, backstage pass  
Personal coaching team  
Champagne bath  
Take a swim

Party girl...

Gimme everything I want right now  
Gimme everything I want right now

I pick her up when sunrise is nigh  
And treat her with bagels and chai  
I guess she's fine  
My little party girl

Party girl...

Yeah

Gimme everything I want right now...

Give me some blues and greens  
Let's get stoned and smoke some brown weed  
I wanna go to the VIP meet and greet  
Kinda love those shoes three tone  
Red on black  
Black on black
