

Satellite

Claptone

Owee
I can feel the satellites around my brain
Owee
It's the moment when they land I can't explain
Owee
It's a secret
Sshh...
Don't tell it
Sshh...
And I've been dreaming of nature
I was planted in the garden long ago

Owe
It's my fantasy
The beautiful landscape
I paint before my inner eye
Yee can't you see
The river the treetops

I'm swimming naked with one eye to the sky
And the other to the deep dark and blue
It's pulling us through to the other side
There's no reason to hide
When we all are the universe
Connecting now and then
Making us feel like humans again
It's familiar yet so strange
But we need the reminder

Owee
I can feel the satellites around my brain
Owee
It's the moment when they land I can't explain
Owee
It's a secret
Sshh...
Don't tell it
Sshh...
And I've been dreaming of nature
I was planted in the garden long ago

Owee
I can feel the satellites around my brain
Owee
It's the moment when they land I can't explain
Owee
It's a secret
Sshh...
Don't tell it
Sshh...
And I've been dreaming of nature
I was planted in the garden long ago

I've been dreaming of nature
I was planted in the garden long ago
I've been dreaming of nature
I've been dreaming of nature
