

## Reflection

Clara Benin

Up in the air, everything's clear  
Memories coming to light  
No stopping me, better believe  
Feels good to be alive  
I don't know when I'll be here again  
I'll make the most of this moment  
All that I am, breathing it in  
Feels good to be alive

If the rain clouds had to roll up  
I won't worry 'bout it too much  
If the skies don't soon clear up  
No matter the weather I'll be by your side  
See my reflection in your eyes

Up in the air, everything's clear  
Memories coming to light  
No stopping me, better believe  
Feels good to be alive  
I don't know when I'll be here again  
I'll make the most of this moment  
All that I am, breathing it in  
Feels good to be alive

If the rain clouds had to roll up  
Don't you worry 'bout it too much  
If the skies don't soon clear up  
No matter the weather I'll be by your side  
See my reflection in your eyes

Up in the air, everything's clear  
Memories coming to light  
No stopping me, better believe  
Feels good to be alive  
I don't know when I'll be here again  
I'll make the most of this moment  
All that I am, breathing it in  
Feels good to be alive

Up in the air, everything's clear  
Memories coming to light  
No stopping me, better believe  
Feels good to be alive  
I don't know when I'll be here again  
I'll make the most of this moment  
All that I am, breathing it in  
Feels good to be alive
