

# Tightrope

Clara Benin

If you can catch my wave  
You have to be brave  
Cause I'm a hurricane  
Constantly searching  
For something to destroy

Are you here to stay?  
You're getting in the way  
Of things, you're right in front of me  
But I'm not about to give in

You think you know it all  
I'm a thunderstorm  
And you've only seen a shadow  
Better brace yourself  
Or you'll be overthrown

You've got a lot to learn  
I've got a lot to burn  
I'm terribly afraid  
You'll run away once it begins

You think you know it all  
You're on a tightrope  
And I'm a volcano  
Better brace yourself  
And think before you fall

I'd like to think that  
We could be more than this  
Yeah, I'd like to think that  
We could be more

Yeah, I'd like to think that  
We could be more than this  
Yeah, I'd like to think that  
We could be more

I think we're gonna make it  
There's no need to rush now  
I think we're gonna make it  
Right on time
