

Can't Do Both

Clara Mae

Let's be black or white
No more games tonight
Why don't we decide?
Take the left or right

I don't want your something
I need all or nothing
That Bonnie and Clyde ride or die
If you're out, I can take it
Just don't keep me waiting
'Cause I've only got so much time

Hold me close, don't let me go
Just don't say you miss me if you don't
You can choose to stay or stay away
But don't say you love me if you won't
I'm getting sick of this half-way devotion
Don't know where the hell this is going
So just stay the night or say goodbye
Just don't leave me holding onto hope
'Cause you can't do both
No, you can't do both

There's no wrong or right
Only truth, no lies
You can walk away or fight
Let it die or stay alive

I don't want your something
I need all or nothing
If I'm not the one, step aside
If you're out, I can take it
Just don't keep me waiting
'Cause I've only got so much time

Hold me close, don't let me go
Just don't say you miss me if you don't
You can choose to stay or stay away
But don't say you love me if you won't
I'm getting sick of this half-way devotion
Don't know where the hell this is going
So just stay the night or say goodbye
Just don't leave me holding onto hope
'Cause you can't do both
No, you can't do both
No, you can't do both

'Cause you can't do both
No, you can't do both
No, you can't do both
