

Crash

Clara Mae

I knew everything about you, things you're keeping to yourself
Every inch of your body has something to tell
I know you don't trust your dad 'cause he never tried to understand
Apologizing for his problems, then did it again

I know you're afraid you'll become just like him
But you treat me better than I ever did
You make me nervous in the best kind of way
It's nothing about you that I wanna change

Your place, late nights
Cigarettes and cheap red wine
Heartbreaks, real life
Feels a little scary 'cause it's
Good, it's actually good
But it's never like party
You would still be
The best I ever had if we crash
The best I ever had if we crash

I know you don't always believe me, it shouldn't be that hard to tell
The next day you will find it easy to just be myself
Driving in your car, speeding in the dark, we don't have to say much
Telling me how bad you want me, but scared you'll mess up

I know you're afraid you'll become just like him
But you treat me better than I ever did
You make me nervous in the best kind of way
It's nothing about you that I wanna change

Your place, late nights
Cigarettes and cheap red wine
Heartbreaks, real life
Feels a little scary 'cause it's
Good, it's actually good
But it's never like party
You would still be
The best I ever had if we crash
The best I ever had if we crash, hmm

Your place, late nights
Even if it ain't some time
I still go back
Wouldn't change a moment 'cause it's
Good, it's actually good
But it's never like party
You would still be
The best I ever had

Your place, late nights
Cigarettes and cheap red wine
Heartbreaks, real life
Feels a little scary 'cause it's
Good, it's actually good
But it's never like party
You would still be
The best I ever had if we crash

Oh ooh, the best I ever had if we crash, yeah
The best I ever had if we crash
Ooh, ooh...
