

# Drunk On Emotions

Clara Mae

Want you back all to myself  
Though I saw you came with someone else  
She's not really what you want  
'Cause you look at me like she's so gone

When the party dies we hold each other tight  
Say you won't let go even though I know  
I let you tell me lies, warned you not tonight  
Say you won't let go, hold my body close

Make me drunk on emotions  
High without smoking  
Stay when the morning comes  
Make me lose all my focus  
Down beat and broken  
Tired of feeling numb

In just one look, we know we're stuck  
It's like none of us can get enough  
And that moment when you touch my hand  
I lose myself, I'm yours again

When the party dies we hold each other tight  
Say you won't let go even though I know  
I let you tell me lies, warned you not tonight  
Say you won't let go, hold my body close

Make me drunk on emotions  
High without smoking  
Stay when the morning comes  
Make me lose all my focus  
Down beat and broken  
Tired of feeling numb

Don't go back to her  
Don't, don't say a word  
Make me drunk on emotions  
High without smoking  
Stay when the morning comes

And nobody made me feel the real things  
Like you did, like you do and it hurts 'cause it's true  
Nobody got me close to feelings  
Like you did, like you do

Make me drunk on emotions  
High without smoking  
Stay when the morning comes  
Make me lose all my focus  
Down beat and broken  
I'm tired of feeling numb

Don't go back to her  
Don't go, don't say a word  
Make me drunk on emotions  
High without smoking  
Stay when the morning comes
