

Once In A While

Clara Mae

There's that smile in a blurry photo
When I wanna remember
It's the one I go to
Over and over only running in circles
But we got time
Tell me we got time

Once in a while
I see that something in your eyes
But I don't know how to turn that spark into a fire
Once in a while
I see the one that changed my life
Wonder where you go and where you're at
When your mind goes back to black

Don't take much til I see your colors
I can still remember
But we're still good together
Darling I know that it'll never be perfect
But we can try
Tell me that you'll try

Cause once in a while
I see that something in your eyes
But I don't know how to turn that spark into a fire
Once in a while I see the one that changed my life
Wonder where you go and where you're at when your mind goes back to b
lack

Let me see your heart break
Let me see tears that fall
Any type of feeling
Is better than nothing at all

Let me see your heart break
Let me see behind those walls
Cause even if you're hurting
It's better than nothing better than nothing at all

Let me see your heartbreak
Let me see tears that fall
Any type of feeling
Is better than nothing at all

Once in a while
I see the one that changed my life
Wonder where you go and where you're at when your mind goes back to b
lack
