

Overused

Clara Mae

Same place, my bed, your lips
Long nights, first touch, last kiss
We're in that same fight, you're right, admit
I'm afraid that we're getting too good at this
Forgetting who we are

I don't want those late nights, long drives in your car
To get in the way of our big dreams that we shared in the dark
What if we want something different?
What if we're better apart?
Before we take it too far

Maybe we should leave it as it is?
'Cause it doesn't get better than this
But we don't know when to quit
'Cause it doesn't get better than this
Happy tears then I'm feeling sad
Best and worst that I ever had
I don't wanna see us end like that

You talk, I hear you speak
But I don't hear a thing
It's always I try, you cry, so I
I'm afraid that we're getting too good at this
Forgetting who we are

I don't want those late nights, long drives in your car
To get in the way of our big dreams that we shared in the dark
What if we want something different?
What if we're better apart?
I think it's time that we talk

Maybe we should leave it as it is?
'Cause it doesn't get better than this
But we don't know when to quit
'Cause it doesn't get better than this
Happy tears then I'm feeling sad
Best and worst that I ever had
I don't wanna see us end like that
I don't want you to get over me
Getting over you, getting overused
Getting over me, getting over you, getting overused
Happy tears then I'm feeling sad
Best and worst that I ever had
I don't wanna see us end like that, mm no

Ooh, what if we walk away? (Mm)
Ooh, what if it's all a mistake?
What if it's 4 in the morning
Regret in bed and upset it's too late
If we never leave it
We're never believe it

I don't want you to get over me
Getting over you, getting overused
Getting over me, getting over you, getting overused
Happy tears then I'm feeling sad

Best and worst that I ever had
I don't wanna see us end like that
