

# THRILLER

Clara Mae

Have you ever loved somebody  
But you can never talk it out  
Livin' off the drugs and parties  
Only call me when you're coming down  
Laying in our deathbed honey  
Why you went and sold my soul?  
Tell me, was it worth the money?  
Burn yourself out just to go home

Lately I'm stressed  
When you undress  
Every time the lights go down  
Throw me away  
Say you can't stay  
I don't wanna waste no time

You're so indecisive  
Always picking fights N settin' fires  
Just another thing that we don't talk about to save us time  
Dying for the liar mind tricks all the time you kill in silence  
While you hold the trigger  
Cut my life into a thriller

Sometimes the truth ain't pretty  
Standing in a lonely crowd  
You moved to a different city  
Just to find out through word of mouth

Lately I'm stressed  
Feeling depressed  
Every time the lights go down  
Throw me back in  
Over again  
I don't wanna waste no time

You're so indecisive  
Always picking fights N settin' fires  
Just another thing that we don't talk about to save us time  
Dying for the liar mind tricks all the time you kill in silence  
While you hold the trigger  
Cut my life into a thriller

You're so indecisive  
Always picking fights N settin' fires  
Just another thing that we don't talk about to save us time  
Dying for the liar mind tricks all the time you kill in silence  
While you hold the trigger  
Cut my life into a thriller
