

Thank Me Later

Clara

Tell me no
When I'm in the mood to fight, just tell me no
When the things I say, they're hurtful
You should tell me no
But you never do, so I put you through
Hell, and I know it's wrong
I hate that I get so vicious

When it comes to my feelings
I'm always actin' on 'em right away
Instead of takin' my time to cool down
I don't feel like me when
We fight, don't like the things that I say
Then I don't feel so good

I'd put myself on mute if I could, you know
Need to get some self-control
This side of me's ahead
I'm tryin' my best to tail
Now I'm full of regret, but I'd
Never tell 'cause I got my pride
So I'll shut up this hater
I might thank me later

Look at me
Tryna clear the air, apologies
Does it make it less unfair? No
I'm working on
Not getting so nasty whenever we fight, oh
Bad vibes, dust 'em off
I hate that I get so vicious

When it comes to my feelings
I'm always actin' on 'em right away
Instead of takin' my time to cool down
I don't feel like me when
We fight, don't like the things that I say
Then I don't feel so good

I'd put myself on mute if I could, you know
Need to get some self-control
This side of me's ahead
I'm tryin' my best to tail
Now I'm full of regret, but I'd
Never tell 'cause I got my pride
So I'll shut up this hater
I might thank me later

Life is getting too painful
Whenever she's around
So I'll shut up this hater
I might thank me later
I'm feeling so unstable
Give me time to calm down
So I'll shut up this hater
I might thank me later

I'm sorry that I get so
Mad, mad
Every time, mmh
It doesn't matter anymore, no
Who's wrong, or right
Whoa-whoa-ooh

I'd put myself on mute if I could, you know
Need to get some self-control
This side of me's ahead
I'm tryin' my best to tail
Now I'm full of regret, but I'd
Never tell 'cause I got my pride
So I'll shut up this hater
I might thank me later

Life is getting too painful
Whenever she's around
So I'll shut up this hater
I might thank me later
I'm feeling so unstable
Give me time to calm down
So I'll shut up this hater
I might thank me later
