

Unsaid

Clara

Don't you remember when you told me
Every little thing that I did was so wrong? (Hey)
And don't you remember, baby, how you told me that
Every little time I let myself go?

I'm free
So now, I'll go replace the memories
You can't reverse those steps of loving me
Don't you remember? Don't you remember?

Hey baby, baby, no way
Feels like bullets up in my head
That's shaking me, unsaid
Baby, baby, can't get you out of my mind
Feels like your touch all of the time
That's shaking me, unsaid
That's shaking me
That's shaking me, unsaid, baby
That's shaking me
That's shaking me, unsaid

Do you remember when you showed me
Every little thing that I said was so good?
And do you remember, baby, when you told me
Everything I said wouldn't make sense to none

I'm free
So now, I'll go replace the memories
You can't reverse those steps of loving me
Don't you remember? Don't you remember?

Hey baby, baby, no way
Feels like bullets up in my head
That's shaking me, unsaid
Baby, baby, can't get you out of my mind
Feels like your touch all of the time
That's shaking me, unsaid
That's shaking me
That's shaking me, unsaid, baby
That's shaking me
That's shaking me, unsaid
(That's shaking me)
(That's shaking me, unsaid)

I'm free
So now, I'll go replace the memories
You can't reverse those steps of loving me
Don't you remember? Don't you remember?

Hey baby, baby, no way
Feels like bullets up in my head
That's shaking me, unsaid
Baby, baby, can't get you out of my mind
Feels like your touch all of the time
That's shaking me, unsaid

(Why you gotta talk that trash now?)

That's shaking me
(You can't take it back)
That's shaking me, unsaid
(Why you gotta talk that trash now?)
That's shaking me
(You can't take it back)
That's shaking me, unsaid
