

Still awake, the lights out  
Don't even know what I'm thinkin' about  
I've been feelin' upside down  
And I know I should let it go  
But I'm committed to the meltdown  
My mind's like circus, don't know if I like it  
Whenever I lay down  
(When I lay down, down, down)

Swear to God, I'm always overthinking  
Man, I barely made it to the weekend  
Really need these Adderalls to kick in  
'Cause I'm so done, staring at the ceiling

Maybe I should see a doctor, maybe not tonight  
Maybe I just like the dark side more than the light  
When I get lost in this mood, I wanna dance 'til it's gone  
Maybe I'm a little off but I don't really mind

I'm weird, I'll admit it  
I used to think that different was bad  
And that I wouldn't fit in and I didn't  
And I know that I'm probably a little awkward, then again  
I don't care, I'm a weirdo, weirdo, weirdo (Weirdo)

And I've been binging thoughts instead of sleeping (Oh, oh)  
Dude, I barely made it to the weekend (Oh, oh)  
Really need these Adderalls to kick in (Oh, oh)  
'Cause I'm so done, staring at the ceiling

Maybe I should see a doctor, maybe not tonight  
Maybe I just like the dark side more than the light  
When I get lost in this mood, I wanna dance 'til it's gone  
Maybe I'm a little off but I don't really mind

Little out of my mind but I'm cool with it  
Stable all the time, who am I kidding?  
Some days I don't know if I wanna laugh or cry  
And now, I know that I would lie if I say it didn't  
Bother me at times but I wouldn't change it  
Though I know, I know that

Maybe I should see a doctor, maybe not tonight  
Maybe I just like the dark side more than the light  
When I get lost in this mood, I wanna dance 'til it's gone  
Maybe I'm a little off but I don't really mind (Don't really mind it)

Maybe I'm a little off  
Yeah, maybe I'm a little off  
But I don't really mind
