

Aurora

Clare Bowen

How blessed be I
What ever did I do
To be standing in the light
Shining off of you?

Aurora
I see in your eyes you've been crying
Confused by the world but you're trying
I know that look on your face
Aurora
There is a wonder inside you
You couldn't hide if you tried to
A heart from a heavenly place

How blessed be I
What ever did I do
To be standing in the light
Shining off of you?

Aurora
If you should find yourself wondering
Why is there always that something
People just can't seem to place?
Just remember
All of the reasons you don't fit
They all add up to your magic
Unusual, beautiful grace

How blessed be I
What ever did I ever do
To be standing in the light
Shining off of you?
You dance across the sky
Rose of midnight blue
Wild golden light
Shining off of you
You, you, you...

How blessed be I
What ever did I ever do
To be standing in the light
Shining off of you?
How blessed be I
What ever did I ever do
To be standing in the light
Shining off of you?
That wild, golden light
Shining off of you
