

Helpless

Clare Bowen

I know you feel it when I want you
I see that shiver in your bones
The way you always leave me breathless
When all I wanna do is take you home

Helpless

Can't you see I can't help it
I know you know I know what to do, what to do
I know you know I know what to do, what to do
Oh, I'm helpless
Can't you see I can't help this
Come on over here...
And help me help you

(They can) Dress me down in the street
Throw stones and make a fool of me
Paint me red and hang me out to dry
Still I'm get up, and try try try...

Cause I'm helpless
Can't you see I can't help it
I know you know I know what to do, what to do
I know you know I know what to do, what to do
Oh, I'm helpless
I see ya see I can't help this
Come on over here...
And help me help you

Helpless

Can't you see I can't help it
I know you know I know what to do, what to do
I know you know I know what to do, what to do
Oh, I'm helpless
I see ya see I can't help this
I know you know I know what to do, what to do
I know you know I know what to do, what to do
Oh, helpless
I see ya see I can't help this
I know you know I know what to do, what to do
I know you know I know what to do, what to do
Oh, helpless
I see ya see I can't help this
Come on over here...
Help me help you

Oh, come on over here...
